Head-to-head comparisons confirm that Omnilink's electronic monitoring technology is best-of-breed, advancing standards through unrivaled reliability and ease of use.

The FocalPoint Offender Monitoring™ System

The FocalPoint system combines Omnilink's best-loved electronic monitoring application with the industry's most reliable GPS/AGPS/RF/AFLT tracking devices and comprehensive 24/7/365 support services for superior supervision.

The 2014 Compass Intelligence Awards recognize world-class organizations that exhibit superior technology and innovation. Winners were selected by 60+ industry-leading press and analysts based on product comparison, degree of innovation and customer satisfaction.

Why choose Omnilink? Better technology can make an impact in your day, your agency's goals, offender outcomes, and public safety. We've developed great solutions to the most significant and common problems in the electronic monitoring industry:

Common problems

- Inaccurate, unreliable and lost tracking data
- Can't track indoors and in urban canyon environments
- Numerous false alerts cause delayed response and drain resources
- Software that's time consuming and frustrating
- Devices that are not waterproof
- Poor network coverage
- Lack of mobile software prevents in-the-field work

Omnalink solution

The most accurate and reliable location data

The most advanced, proven indoor tracking

10x fewer false alerts for rapid response and maximum efficiency

The industry's user-friendliest software

Waterproof, dishwasher safe devices

Dual Sprint/Verizon coverage

The only true cross-platform mobile app
